Yes, I will look through my photos and ask the other tribal coordinators in my unit.

We have permission for all the photos being used in the report, and this one is the only one with people in it. I don't think we'll have time to track down the necessary permissions, so I think we should cut it from the ES.

Tami - if you have any, or know anyone who has any, photos of salmon use (e.g., drying salmon, etc.) - something to represent the cultural side of things - please let me know. It would be great to incorporate those types of photos into the document.

Thanks! Kate

Yes, for any photo that has human beings in it, young or old, we must have permission. I have spoken to Ron Wassillie from Newhalen and he does not want his photo being used, we have one of him and the RA. I do not believe you are intending on using that photo, but just in case I thought I would tell you.

Is there a group of photos somewhere that we are planning to use in the document, how have we tracked permission for each one?

Mary Olympic is from Igiugig and so we could try to get a hold of someone at Igiugig to get permission. I know her daughter, **Ex. 6 PII** and I could reach out to her for her help on this. There are other people in that photo, we would need their permission as well. Does anyone know who they are?

Please let me know if there is anything you need my help on.

THANKS! Tami

Kate:

We should get permission before using in the report. Without being asked, some folks might be offended.

Jeff

Hi Jeff & Alan,

I'm piecing together photos for the formatted Executive Summary, and I'd like to use the attached photo from Alan - but I want to double-check that it's okay to use. Do we need to get explicit permission from the people in the photo before using it?

Any advice or suggestions would be welcome.

Thanks! Kate
